EXPERIENCE

Westchester County IT Department

White Plains, NY

GIS Intern

May-August 2025

- Enhanced mapping applications by migrating projects to updated GIS Software, coordinating with the team leader on requirements. Designed and implemented new filtering features to improve accessibility for Westchester County Residents
- Projects:**
 - Disability Resource Guide:** Developed a mapping application on ArcGIS Experience Builder to display disability services by location, with filters for disability type and age-group; updated data using ArcGIS Pro to ensure access to updated records
 - Food Establishment Inspections Guide:** Created an interactive mapping application linking inspection data to food establishments within the Westchester County Area
 - Ward Pound Ridge Reservation StoryMap/Dashboard:** Designed an interactive map tour highlighting the location and images of Westchester County's largest park, providing the users with an engaging experience they could explore remotely

EXTRACURRICULAR ACTIVITIES
